Experience

Frontend WebDevelopment Intern

IBM SkillsBuild Internship Program — Remote

Jun 2024 – Aug 2024 (6 weeks)

- Completed a 6-week internship in Front-end Web Development under the IBM SkillsBuild Program, in collaboration with CSRBOX.
- Gained hands-on experience in **HTML, CSS, JavaScript**, and responsive web design.
- Built and styled interactive web pages, applying core frontend technologies in real-world scenarios.
- Received structured mentorship and feedback from industry professionals.
- Developed and showcased a mini-project demonstrating responsive design and clean UI/UX principles.

Frontend Developer Intern

Bharati Network — Offline Internship at College

Jan 2025 – May 2025 (5 months)

- Contributed to the development of a centralized content redirection platform using **React.js, JavaScript**, and **SCSS**.
- Integrated **Strapi CMS** for dynamic content management across the platform.
- Built reusable UI components and implemented responsive design for cross-device compatibility.
- Collaborated with the team to design and test key modules such as **Social Section, Contact Form**, and **Video/Image Slider**.
- Ensured clean code practices and participated in functional and unit testing of components.

Education

MU(Magadh University) Gaya

July 2018 – Dec 2021

BCA(Bachelor of Computer Application), percentage:66%.

BVICAM New Delhi

Sep 2023 – May 2025

MCA(Master of Computer Application), percentage: 77%

Side Projects

Cricket Score Board

Technologies: JavaScript, React.js, Axios, React Bootstrap

- Developed a real-time Cricket Scoreboard web application.
- Used Axios to fetch live match data from the cricketdata.org API.
- Implemented a dynamic search bar to filter and display matches efficiently.
- Designed a responsive and user-friendly interface using React Bootstrap.
- Ensured smooth user interaction across different screen sizes and devices.

Book My Doctor

Technologies: MongoDB, Express.js, React.js, Node.js (MERN Stack)

- Built BookMyDoctor, a full-stack medical appointment booking system.
- Implemented core features: appointment booking/cancellation, doctor profile management, and patient reviews.
- Designed a clean, intuitive React.js frontend for both patients and doctors.
- Developed a robust Node.js + Express backend with RESTful APIs.
- Integrated MongoDB for managing user, appointment, and review data.
- Delivered a seamless user experience with proper error handling and state management.

Technical Skills

Tools & Technologies: C, Java, HTML, CSS, JavaScript, DBMS, DSA, Node Js, React Js, Express Js, MYSQL, MongoDB, CN (Computer Networking), Git, GitHub, VS Code, Postman, MS Office, Corel Draw

Coursework: Object Oriented Programming, Data Structures & Algorithm, CS Fundamentals

Achievement

- NIMCET AIR 1272.
- Published research paper on Digital Analytics which got selected in INDIACOM Tractate'24
- 300+ DSA Problems solved on(Leetcode)
